Dear Emma

Apologies for the delay in responding

The AONB has no objections to the continued use of the site to 2032. We would encourage that conditions are attached limiting the hours of operation, no further external lighting and that the existing lighting be switched off when the site is not in use to protect dark skies (a special quality of the AONB) and a remediation condition for the reinstatement of the land once the use ceases.

Kind regards

Rebecca Davies
